Sacred Site Adventure Tours

The history, power and mystery of visiting a sacred site engender and invoke a sense that one is on a spiritual journey or pilgrimage. These powerful, mysterious locations are testament to man's quest for the divine and unity with the cosmos. Destinations include but are not limited to Africa, Asia, Australia, Egypt, France, Greece, Hawaii, Italy, Mexico and the United Kingdom.

Edge of World Retreats develops customized itineraries guided by facilitators for a one-of-a-kind experience. From surrounding yourself in the magnificent culture of Greece's ancient civilization to connecting with nature through an enduring dolphin encounter in warm Pacific waters off the coast of Hawaii's Big Island, Edge of World Retreat's Sacred Site Adventure Tours are designed to ignite your passion and awaken your soul.

Philanthropic Travel

Discovery, challenge, breakthrough, engagement and renewal. These are the cornerstones of philanthropic travel. Edge of World Retreats' volunteerism programs takes you on journeys that enlighten you to your personal strength and selflessness while contributing skills and talents to communities across the globe. These types of sojourns cultivate profound community and connection on so many levels – within yourself, with your fellow travelers, and especially with the wildlife, natural wonders and people of the region.

In addition to learning the spiritual and cultural values of our global neighbors, you'll nurture mutual exchange while contributing your skills and talent to improve a community's quality of life. And in doing so, you'll strengthen your personal commitment to the environment and responsible conservation.

Youth Eco Programs

Edge of World Retreats provides children an experience of meaningful purpose. Our programs instill in youth the feeling of empowerment that results from taking stewardship of their lives and their planet. Through experiential learning, they'll blend and integrate with their natural surroundings and the elements around them – all while gaining a heightened awareness of heart, body, mind and spirit.

With nature as a backdrop, participants garner life skills through the mere experience of traveling to a region they've never seen before. In venturing outside their comfort zone, these youthful participants discover the true leader within themselves and learn that being a part of the whole is far more rewarding than just furthering their own self-serving needs. Combined with relevant aspects of community service, they'll experience the essence behind giving and making a difference, which solidifies within them the mission of sustainability.

Tracy Brooks – Founding Director, Edge of World Retreats

As founding Director of Edge of World Retreats, Tracy has created a company that provides meaningful experiences through travel. Her vision was inspired by the culmination of 20 years of traveling with expeditions in Central and South America, Alaska and Europe, and 15 years of corporate advertising and marketing experience with Fortune 500 companies.

Tracy also mentors others as a Certified Life Coach, and Corporate and Organizational Facilitator. She believes those uncharted regions - both on the inside and outside - are where true bliss and meaning resides. To her, there is nothing more rewarding than being part of a group's or individual's transformational breakthrough, when someone has experienced a personal victory of inner discovery while on the mountaintop or in the quiet knowing of having made a difference in someone else's life. It all leads to inner fulfillment and outer greatness.
