Estará is an international sacred sound healing and movement educator, speaker, sacred dance artist and ritual leader, who will lead us in ceremonies, that will connect us to the energy currents that converge in this magnificent heart chakra region. In these ancient sites where the great mysteries of the Holy Grail reside, we will explore the essence of it's meaning and embody the mystery surrounding Mary Magdalene. We will attune ourselves to the sound frequencies that relate to the geometries of many of these sacred sites.

Glastonbury is a key place to create rituals to balance the feminine and the masculine energy within us. Together we will experience the incredible goddess site of Newgrange and connect with the magical, mystical Stonehenge, known for receiving knowledge as an initiatory site.

Estará will lead us in tapping into the special sound frequencies that relate to these core energies at these sacred sites. We will connect with ancient wisdom and most likely be blessed with experiencing crop circles. Using the Vescia Piscis sound frequencies, *Estará* will lead us in a sacred ritual to invoke a vibration of union and harmony within ourselves and throughout our Planet.

Fall Equinox Journey into the Sacred Mysteries of Stonehenge, Glastonbury and Newgrange

Estará has been featured on CBS TV's "Eye on America" and has appeared at many conferences and events worldwide, including the Parliament of the World's Religions, Wellness Conference with Deepak Chopra, and the World Festival of Sacred Music, initiated by His Holiness the Dalai Lama.
